Adrian Hanks is an International Master facilitator and a professional counsellor, psychotherapist and educator. He has many years of experience in personal and professional development and brings a depth and wisdom to his work that dives right into the core of being able to deliver from a place of authenticity. Adrian encourages and guides people through their limitations, blockages and thresholds with a deep sense of passion and understanding. He likes to work beyond the limits of the ordinary, beyond the cutting edge; working without the security of a safety net.

You are invited to explore and develop your own facilitation skills and begin the journey of reaching the cutting edge of *Conscious Group Facilitation*.

"I do not claim to be wiser than you. I do claim to know that what I teach is my truth. If you want to reach your truth, I am willing to walk beside you whilst you explore".

Adrian
